eNet Validation Quick Start Guide for End User

1. Connect to eNet System

Open any web browser and go to _____.

2. Login To Your Account

Instant Ticket Validation :To Immediately be able to validate a ticket, click the 'validate ticket' button on the top menu bar. A log in form will appear. Enter your user name & password, then click 'login'.

Traditional Login: To have the option to change or update your profile, click the 'login' button on the top menu bar. The login form will appear. Enter your user name & password, then click 'log in.' To then validate a ticket, click the 'validate ticket' on the top menu bar.

Please Note:

You must have a valid user name & password to be able to validate a ticket

You have five chances to correctly enter your login credentials before being locked out. If you are locked out, contact your manager or operator.

3. Validate A Ticket

After you have logged into your account, you can now validate tickets.

To Validate:

Enter the Ticket Number or Scan Barcode

Select type of Validation to be applied

Click 'Validate Ticket' or 'Enter'

You will then be notified of the success or failure of the validation

Please Note: Currently only one validation is allowed per ticket
